## **WE TIP**

The Milwaukee Police Department is in support of the WeTIP Program. WeTIPs “total community involvement” approach to crime is in direct line with the Community Services Division’s crime prevention philosophy “working together with individual neighborhoods to reduce the fear of crime, improve community and police relations and improve the quality of life in the City of Milwaukee.” Community Services Division personnel have taken on the challenge of educating the public regarding the WeTIP Program. WeTIP information pamphlets will be provided along with every crime prevention presentation (English/Spanish) as well as a brief synopsis of the programs benefits to the community in fighting crime. This assures us that the community as a whole will be "on board" with a total crime prevention mindset.
